HURRICONE™

Cordless Floor Dryer

**DRIES
WET
FLOORS!**

Safety cones, floor signs, and barricades are widely used in all types of establishments to warn pedestrians of slipping and falling. Most establishments dutifully mop up wet floor areas even though mopping alone does not sufficiently dry an area where there is continual foot traffic bringing in rain or snow from the outdoors, or where a spill has occurred.

Marking the boundaries of the wet floor area with safety cones or other types of barricades serves to warn pedestrians, but does not aid in alleviating the hazard. For this reason the HURRICONE™ Cordless Floor Drying Cone Dolly was developed.

The HURRICONE™ aids in drying the floor with a continuous flow of air in 360 degrees and up to 15 feet in diameter. While drying the floor, the HURRICONE™ also warns pedestrians of a potential slip hazard using standard 36 inch floor cones.

- A – Safety Cone Holder
- B – Fan Finger Guard
- C – Corrosion, Chemical & Impact Resistant Polymeric Main Base
- D – Battery Level Indicator

- Decrease your floor drying time by up to 90%
