Bissell BigGreen Commercial offers “a true fixed cost solution” with our “Express Warranty”

Bissell BigGreen Commercial is committed to introducing innovative cleaning products and programs that not only provide greater cleaning efficiency but bottom line savings as well. One such program is our “Express Warranty”, designed for the foodservice industry and the inherent problems faced regarding vacuum cleaners picking up food and grease.

For an additional, upfront cost, Bissell’s “Express Warranty” is an unconditional guarantee on select vacuums and air-movers that provides the customer with a fixed-dollar cost solution for a predetermined amount of time. Typically, that length of time is one year with an optional buy-in for a second year. If, for any reason, the vacuum becomes disabled during the warranty period the customer simply calls the number listed conveniently on the side of the vacuum and speaks to the Bissell’s customer service team. Many issues can be simply resolved over the phone, like a broken belt or clog. However, if the customer is experiencing an issue of a greater technical nature Bissell will ship a replacement vacuum to the customer, guaranteed to arrive within 72 business hours. Then at no additional cost to the customer we will schedule the pick up the disabled unit.

Call us at 1-800-242-1378 for more details.
